

YAGATHERING :: 23-27 July :: Dzukija

A small and beautiful place will hold the gathering in its magical arms. Give it your deep respect and love. Every place has its energy field and it responds in the way you treat it. All is connected! Respect mother Earth and all the living creatures, live and let live! ;-)

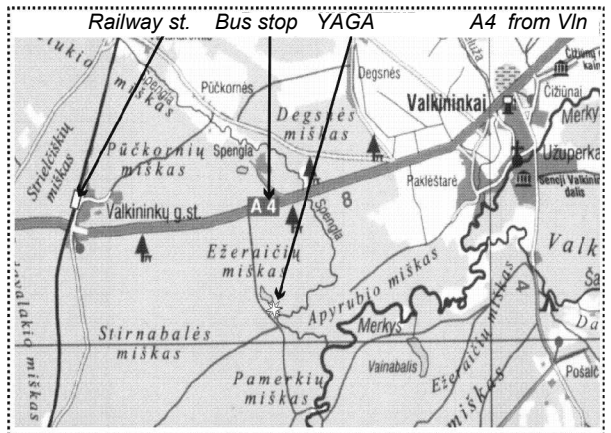

The site is located just 60km south from Vilnius next to a lake and it is surrounded by woods. It is also gifted by a water source nearby where everyone can go and fill their bottles with clean and fresh ground water.

From Kaunas

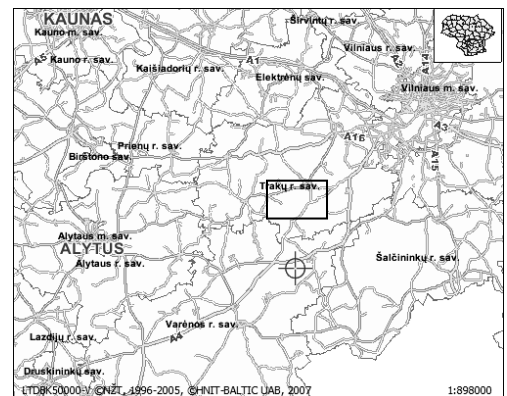

Its only 10km closer if you would choose to go through Trakai and equally the same if you would go through Alytus, so we recommend you to go through Vilnius as the road is good and getting to Yaga from there is straightforward.

Hitch-hiking

is very easy in that direction, many cars go there and people usually stop quickly. The only thing you need to find is A4 motorway to Druskininkai which is situated on the outskirts of Vilnius.
